

Acknowledgement of Undergraduate Nursing Handbook

The Undergraduate Nursing Handbook is a topically organized electronic reference intended to provide information regarding policies and procedures, plans of study, and academic and clinical requirements that pertain to students while enrolled in the College of Nursing. Students are responsible for reviewing the information and adhering to the policies contained in this Handbook.

Purdue University Northwest College of Nursing reserves the right to make changes to the Undergraduate Nursing Handbook. Although the Handbook is updated annually, changes may be made during the academic year. Changes made during the academic year will be communicated via the portal and/or email. Therefore, it is each student's responsibility to routinely check his/her University portal and/or email account for notice of any revisions of the Undergraduate Nursing Handbook.

I have followed the link to the PNW College of Nursing [Undergraduate Nursing Handbook](#)

In my Castle Branch Medical Document Manager I will check the "received" box and then submit indicating I have received information regarding the Undergraduate Handbook and that I am responsible for the information and policies contained in the Handbook. In addition, I acknowledge that I am required to review the handbook for updates and revisions while a student in the nursing program.
