Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education? (https://www2.ed.gov/programs/tqpartnership/awards.html)

If yes, provide the following:
AWARD YEAR
GRANTEE NAME
PROJECT NAME
GRANT NUMBER
LIST PARTNER DISTRICTS/LEAS (ONE PER LINE)
LIST OTHER PARTNERS (ONE PER LINE)
PROJECT TYPE
Residency
Pre-baccalaureate Path Posidonay and Pre-baccalaureate
Both Residency and Pre-baccalaureate

List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

THIS PAGE INCLUDES:

>> Program Information

Program Information

List each teacher preparation program included in your alternative, ihe-based route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at https://www2.ed.gov/programs/tqpartnership/awards.html.

Teacher Preparation Programs	Teacher Quality Partnership Grant Member?	Update
Special Education Intense Intervention	No	
Special Education Mild-Moderate	No	
Teacher Education - Biology	No

Total number of teacher preparation programs: 22

Program Requirements

On this page, review and enter information about the program requirements for admission into the program, program completion, and supervised clinical experience. If you submitted an IPRC last year, much of this page is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to specify the requirements in the appropriate reports. For the traditional report, provide the requirements for traditional programs within the IHE. For the alternative report, provide the requirements for the alternative programs within the IHE.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> Admissions
- >> Undergraduate Requirements
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Admissions

1. Indicate when students are formally admitted into your initial teacher certification program:

Other

▼

If Other, please specify:

Candidates complete graduate coursework following the completion of a baccalaureate program of study

- 2. Does your initial teacher certification program conditionally admit students?
 - Yes
 - No
- 3. Provide a link to your website where additional information about admissions requirements can be found:

https://academics.pnw.edu/education/secondary-education-transition-to-teach-program/

4. Please provide any additional information about or exceptions to the admissions information provided above:

In addition to applying for admission to the University, prospective candidates are required to participate in an interview process prior to formal admission to an Educator Preparation Program at PNW. As part of the interview process, candidates are required to submit an application indicating GPA, successful attainment of CASA/SAT/ACT/GRE scores required by the state. Based upon information provided, candidates are then asked to take part in the interview process. The interview process includes candidates completion of a timed writing sample, a presentation by the candidate to a panel of faculty and clinical educators, followed by responses to interview questions from the panel. Candidates' efforts are rated by the interview panel, and based upon scores, an admission status is determined (i.e., denial, provisional, or full admittance). If candidates are admitted provisionally, they are allowed to move into the first semester of professional coursework and provided with opportunities to remove the conditional standing (e.g., attend professional development workshops on public speaking, working with the writing center to improve written communication, etc.). If a candidate is denied admission, they are required to meet with their academic advisor to create a plan of action for remedying the reason for denial. All candidates may apply for admission to an Educator Preparation Program a maximum of two times.

Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

1. Are there initial teacher certification programs at the undergraduate level?

Yes
NI.
No

2.

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the rest of the page blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2017-18. (§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))

Additional guidance on reporting supervised clinical experience and nonclinical coursework.

Average number of clock hours of supervised clinical experience required prior to student teaching	143
Average number of clock hours required for student teaching	640
Average number of clock hours required for mentoring/induction support	20
Number of full-time equivalent faculty supervising clinical experience during this academic year	2
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	8
Number of students in supervised clinical experience during this academic year	8

Please provide any additional information about or descriptions of the supervised clinical experiences:

Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:	
>> <u>Enrollment</u>	

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2017-18	14
Unduplicated number of males enrolled in 2017-18	4
Unduplicated number of females enrolled in 2017-18	10

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. (§205(a)(1)(C)(ii)(H))

2017-18	Number Enrolled
Ethnicity	
Hispanic/Latino of any race	0
Race	

2017-18	Number Enrolled
American Indian or Alaska Native	0
Asian	0
Black or African American	3
Native Hawaiian or Other Pacific Islander	0
White	10
Two or more races	0

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Additional guidance on reporting teachers prepared by subject area.

What are CIP Codes?

No teachers prepared in academic year 2017-18

CIP Code	Subject Area	Number Prepared

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

Additional guidance on reporting teachers prepared by academic major.

What are CIP Codes?

SECTION I: PROGRAM INFORMATION

Program Completers

On this page, enter the total number of individuals who completed the program in AY 2017-18 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

THIS PA	GE INCLUDES:		
>> <u>Prog</u>	ram Completers		

Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years.

2017-18	9
2016-17	2
2015-16	6

Annual Goals

On this page, review the annual goals in each subject area listed below. If you submitted an IPRC last year, the goals you entered last year are pre-loaded from your prior year's report. Please respond to the questions to report on progress towards the goals, and set new goals for the next academic year.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> Annual Goals Mathematics
- >> Annual Goals Science
- >> Annual Goals Special Education
- >> Annual Goals Instruction of Limited English
 Proficient Students
- >> Assurances

Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(iii), §206(a))

Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2017-18

- 1. Did your program prepare teachers in mathematics in 2017-18?
 - Yes
 - No (leave remaining questions for year blank)
- 2. How many prospective teachers did your program plan to add in mathematics in 2017-18?

4

- 3. Did your program meet the goal for prospective teachers set in mathematics in 2017-18?
 - Yes
 - No
 - Not applicable
- 4. Description of strategies used to achieve goal, if applicable:
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

Academic year 2018-19 7. Is your program preparing teachers in mathematics in 2018-19? Yes No (leave remaining questions for year blank) 8. How many prospective teachers did your program plan to add in mathematics in 2018-19?

4

9. Provide any additional comments, exceptions and explanations below:

All secondary content area educator preparation programs are 'housed' within the department of the content area (e.g., math education is found in the department of mathematics and statistics). We are currently working with departments across the university to increase the number of candidates participating in secondary education programs. Towards this ends, efforts are underway to streamline the curricula that candidates in various content areas take as part of their educator preparation program. Additionally, outreach to counselors and advisors of high school extracurricular activities (i.e., future educator clubs, math clubs, etc) has begun. Candidates, Student Ambassadors, and Advisors from the School of Education and Counseling provide information and share their experiences at PNW at these events to encourage students to pursue education as a career.

Academic year 2019-20

- 10. Will your program prepare teachers in mathematics in 2019-20?
 - Yes No (leave remaining questions for year blank)
- 11. How many prospective teachers does your program plan to add in mathematics in 2019-20?

5

12. Provide any additional comments, exceptions and explanations below:

Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2017-18

1. Did your program prepare teachers in science in 2017-18?

Yes

No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in science in 2017-18?

11	Provide any additional comments, exceptions and explanations below: Currently, faculty members within the secondary program area within the School of Education and Counseling as well as those within the content area departments are investigating ways for streamlining the content area education programs so that they provide opportunities for candidates to develop the appropriate and necessary content knowledge while also developing pedagogical skills and dispositions. This process continued through the fall of 2018, with it being anticipated that curricular changes as well as new plans of study will be developed especially for those 'high demand' areas to be implemented in Fall 2019. Cademic year 2019-20 D. Will your program prepare teachers in science in 2019-20? Yes No (leave remaining questions for year blank)	

Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html .
Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.
Academic year 2017-18
1. Did your program prepare teachers in special education in 2017-18? Yes No (leave remaining questions for year blank) 2. How many prospective teachers did your program plan to add in special education in 2017-18?
12
3. Did your program meet the goal for prospective teachers set in special education in 2017-18? Yes No Not applicable
4. Description of strategies used to achieve goal, if applicable: Implemented two licensure-only Special Education programs at the graduate levelMild-Moderate and Intense-Intervention. This will increase our enrollment within the special education alternative license area.
5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

- 7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
 - Yes
 - No
- 8. Describe your institution's most successful strategies in meeting the assurances listed above:

The Office of Partnerships and Outreach within the School of Education and Counseling tracks candidates in their field experiences. Once candidates have been admitted to professional coursework, their field experiences are purposefully arranged and articulated with specific courses. In being purposeful in these articulations, we are working to ensure that candidates have field experiences in a variety of contexts (i.e., urban, suburban, and rural). Additionally, we are working to ensure that they have a variety of experiences at grade levels in their licensure band and with a diverse socioeconomic group of schools.

Assessment Pass Rates

On this page, review the assessment pass rates. Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

SECTION IV: LOW-PERFORMING

Low-Performing

On this page, review the questions regarding your program's approval/accreditation and whether your program has been designated as low performing by the state. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:		
>>	Low-Performing	

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. (§205(a)(1)(D), §205(a)(1)(E))

- 1. Is your teacher preparation program currently approved or accredited?
 - Yes
 - No

If yes, please specify the organization(s) that approved or accredited your program:

- **✓** State
- **✓** NCATE
- TEAC
- CAEP
- ✓ Other specify:

NCTM, NCTE, NCSS

2. Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

- Yes
- No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:		
Use of Technology		

Use of Technology

1.	Provide the following information about the use of technology in your teacher preparation program. Please note that choosing	'yes' indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))	

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Ye
 - No
- b. use technology effectively to collect data to improve teaching and learning
 - Ye
 - No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
 - No
- d. use technology effectively to analyze data to improve teaching and learning
 - Ye
 - No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher candidates at Purdue University Northwest are required to take the "Foundations of Learning Design and Technology" course which focuses on helping candidates develop the necessary knowledge and skills to effectively integrate technology into curricula and instruction. In this project-based course, candidates use a variety of technological tools to develop materials highlighting technology's role in professional productivity and the learning process. The capstone project for the course is the development of a WebQuest, which requires candidates to use what they have learned about technology's role in education to develop a multidisciplinary inquiry-oriented, web-based lesson that inspires higher-order thinking in candidates. In the course, candidates also discuss how technology can be used to help differentiate instruction to meet the individual needs of learners, and complete an assignment researching adaptive/assistive technologies. As Technology is a cross-cutting theme in our programs of study, candidates are required to use technology to collect and analyze data, and to identify and implement research-based practices that will improve students' learning, engagement and outcomes. Towards this end, resources are made available to candidates to enhance their ability to understand and purposefully utilize technology in their instruction. Some of these resources are: iPads, MacBook Air laptops, and smartboards. Finally, candidates engage in the edTPA as part of their capstone experience during the student teaching semester. In this experience they were required to use technology to collect, manage and analyze data to monitor their impact on learning in the classroom. Additionally, they were required to use the principles of universal design for learning to differentiate instruction through the use of a variety of technology.

SECTION VI: TEACHER TRAINING

Teacher Training

On this page, review the questions about how your program trains general education teachers and special education teachers. For the purposes of these questions, general education teachers means those who are not specifically prepared as special education teachers. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

TH	IS PAGE INCLUDES:
>>	Teacher Training

Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(G))

- 1. Does your program prepare general education teachers to:
 - a. teach students with disabilities effectively
 - Yes
 - No
 - b. participate as a member of individualized education program teams
 - Yes
 - No
 - c. teach students who are limited English proficient effectively
 - Ye
 - No
- 2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.
 - Currently candidates in the Transition to Teach (T2T) at Purdue University Northwest are required to participate in three courses which have been identified as preparing them to meet the challenges of today's classrooms. Specifically, to meet the needs of exceptional learners, all candidates take an Introduction to Special Education course(EDPS 608--Individualizing Instruction in the Elementary and Secondary School) and the course entitled Measuring Educational Achievement (EDPS 532)); and to meet the needs of English Language Learners (ELLs), candidates take a Multiculturalism and Education course (EDPS 585). The T2T program is an 18 credit hour program of study that leads to eligibility for licensure for individuals ho currently hold baccalaureate degrees in one of 17 identified or related disciplines. For candidates who are pursuing the graduate degree in special education, they take 18 credits of coursework related to one of two options: Mild Intervention or Intense intervention. In both of these options, candidates have coursework in which they explore issues of Identification, evaluation and Assessment of Exceptional Individuals (EDPS 563); Social, Legal and Ethical Issues (EDPS 568); and complete two internships (early field experience and student teaching). In the Mild Intervention option, candidates take 6 credits on intervention strategies (EDPS 565 and 591) and a course in Collaboration (EDPS 664). For the Intense Intervention option, candidates take coursework in the Foundations of Severe Disability (EDPS 591), two courses in intervention strategies for work with individuals with severe disabilities (EDPS 664 and 664), and a collaboration course (EDPS 664).
- 3. Does your program prepare special education teachers to:

Yes No Program	does not prepare special education teachers
b. participate a	s a member of individualized education program teams
Yes No Program	does not prepare special education teachers
c. teach stude	nts who are limited English proficient effectively
• Yes • No • Program	does not prepare special education teachers

a. teach students with disabilities effectively

4. Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

For candidates who are pursuing licensure in special education, coursework is specifically targeted for the preparation of candidates to work in one of two populations: Mild Intervention or Intense Intervention. In both of these options, candidates participate in 'program team meetings' at their placement sites, are required to develop individual education plans, and to create learning opportunities for a wide variety of learners with whom they work. In EDPS 565 (mild intervention) and EDPS 664(intense intervention), candidates are introduced to the IEP process and asked to design an IEP. These courses also teach candidates how to be contributing members of the IEP team. The performance of candidates in these courses are documented via an online assessment system that evaluates the ability of candidates to provide effective accommodations and adaptations in the classroom. In addition, an assessment course, EDPS 563, teaches the proper interpretation of psychological evaluation data, a skill necessary to competent participation in the IEP process. In addition, in the EDPS 568 course, candidates learn about teaching learners for whom English is a new language. This includes simulation activities designed to promote empathy and understanding for the challenge these learners experience. Candidates are required to select and design teaching strategies for students who are linguistically different. This work is documented in the online assessment system (TaskStream) through a rubric measuring skills in differentiated instruction. This project also addresses ways to differentiate instruction for students with disabilities, those at risk, children who are gifted, and students who are culturally different. In both of the specific concentration methods courses, EDPS 591 and 565 (Mild Intervention) and EDPS 664 and 664 (Intense Intervention), candidates learn how to measure the impact on instruction on student learning; skill in the development of a behavior intervention plan was also assessed in this course.

SECTION VII: CONTEXTUAL INFORMATION

Contextual Information

On this page, review the contextual information about your program. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

PAGE INCLUDES:		
Contextual Information	<u>1</u>	
		Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Announced by Purdue University Board of Trustees in 2014, the campuses of Purdue University Calumet (PUC) located in Hammond, Indiana and Purdue University North Central (PNC) located in Westville, Indiana were to be unified. The unification process included application and review by the Higher Learning Commission (HLC), and in July 2016 the two distinct campuses were unified to form Purdue University Northwest (PNW). PNW, the fifth largest public university in Indiana, is a comprehensive, regional university dedicated to serving the professional, cultural and general educational needs of the citizens of Northwest Indiana. Prior to unification, PUC was last accredited by NCATE in 2015 and PNC was last accredited by NCATE in 2012. With a total undergraduate enrollment of approximately 566, the School of Education and Counseling graduates close to 57 candidates in the Elementary Education Program each year. Candidates enroll in courses at both campuses.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.

Enrollment Confirmation

Total Title II enrollment from Section I: Program Information, Enrollment is 14.

Number of program completers from Section I: Program Information, Program Completers is 9.

For a total enrollment of 23.
