What equipment do I need for WebEx?

If you have a laptop...

Windows

Required if not equipped with a built-in webcam:

- Webcam
  or
- Microphone

Apple

All compatible Apple laptops have a built-in Apple iSight or iSight HD camera and microphone.

No additional webcam or microphone is required

Note: WebEx does not require every participant to have a webcam or to share video from their webcam. Participants may use their phone to call-in to a meeting if the host has enabled WebEx Audio during the setup of the meeting.

Optional

- Bluetooth Mic / Speaker
  or
- Headset

* Additional software, hardware, and video requirements and information below.

Please call the Customer Service Center at (219) 989-2888 or x2888 if you have additional concerns or questions about minimum requirements.
If you have a desktop...

Windows

Required if not equipped with a built-in webcam or speakers:

- Webcam or Microphone
- Speakers

Apple

All compatible Apple iMacs have a built-in Apple iSight or iSight HD camera, speakers, and microphone.

No additional webcam, microphone, or speakers are required

Note: WebEx does not require every participant to have a webcam or to share video from their webcam. Participants may use their phone to call-in to a meeting if the host has enabled WebEx Audio during the setup of the meeting.

Optional

- Bluetooth Mic / Speaker
  - or
  - Headset

* Additional software, hardware, and video requirements and information below.
