Schneider Avenue Building (SAB) Ground Floor

Building Text Description

Building Location:

The Schneider Avenue Building (SAB) is located at the corners of 169th St., Schneider Avenue, and Osborn Avenue.

Entrances:

The ground floor of the SAB has five (5) entrances.

The eastern side of the building has three (3) entrances. All of these entrances have pavement leading up to them.

- The **North Northeast Entrance** leads into the main north stairway, which leads into the east hallway.
 - There is a sidewalk leading up to this entrance.
 - This is a single door entrance.
- The **Northeast Entrance** leads into the northeast hallway.
 - This entrance has stairs leading up to it.
 - This is a single door entrance
- The **Southeast Entrance** leads into the south hallway.
 - This entrance has stairs leading up to it.
 - This is a single door entrance

The south side of the building has two (2) entrances.

- The **South Southeast Entrance** leads into the northeast hallway. It is a single door entrance.
- The **South Entrance** leads into the south stairway, which also leads into the Energy Center (room number G030). This is a single door entrance.

Elevators:

There are two (2) elevators in SAB.

- The **South Elevator** (GE01) is located in the southwest hallway with the doors opening into the nook it creates.
- The **North Elevator** (GE02) is located at the north end of the east hallway with the door opening into the hallway, and also opens into the north northeast entranceway.

Stairs:

There are seven (7) sets of stairs in SAB.

- The **South Stairway** (GS02) leads to the first floor, and is located at the south entrance through the Energy Center's southern doorway.
- The **Southwest Stairway** (GS01) leads to the first floor. It is located off of the southwest hallway through a doorway that opens into the stairway.
- The **Northwest Stairway** (GS03) leads to the first floor. It is located at the northern end of the northwest hallway, through a door that opens into the stairway.
- The **Main North Stairway** (GS06) leads both into the east hallway and up to the first floor. It is located at the north end of the northeast hallway, through a door that opens into the stairway, and it is also immediately off of the north northeast entrance. This stairway also has a second segment on the west wall that also leads to the first floor and to the entrance to G095.
- The **Small North Stairway** (GS06) is located within room G095 with doorways at both ends.
- The **West Stairway** (GS04) leads to the east side of the building, into the south hallway. It is located off of the northwest hallway, with a door opening into the stairway.
- The **East Stairway** (GS05) leads to the first floor. It is located off of the northeast hallway.

Restrooms:

There are four (4) restrooms on the ground floor of SAB.

- The first set of restrooms is off of the west southwest hallway with the room numbers G009 and G007. They are in the southwest corner of the building.
 - These restrooms have stalls.
 - G009 is a women's restroom.
 - G007 is a men's restroom.
- The second restroom is off of the northwest hallway, room number G046.
 - This restroom is ADA accessible.
 - This is a single user restroom.
- The third restroom is off of the northwest hallway, room number G050. This is a single user restroom.
- The fourth set of restrooms is located off of the south hallway, room numbers G066 and G068.
 - These restrooms have stalls.
 - These restrooms have a handicap stall.
 - G066 is a women's restroom.
 - G068 is a men's restroom.

Building layout (hallways & open areas):

There are six (6) hallways in SAB.

- The **West Southwest Hallway** (GH01) is located in the southwest corner of the building with an open area around the south elevator, and runs east to connect with the southwest hallway, with double doors that open both ways separating the hallways.
- The **Southwest Hallway** (GH02) is located in the southwest corner of the building. The hallway runs south to north, starting at the south with the door to the Energy Center opening into the hallway. The southwest hallway runs north to the northwest hallway, separated by double doors opening both ways; at the north end the hallway also connects with the west southwest hallway and the west stairway.
- The **Northwest Hallway** (GH03) is located in the northwest hallway, running north and south, connecting to the northwest stairway and the southwest hallway. The double doors separating it from the southwest hallway open both ways, and the door connecting it to the northwest hallway opens into the stairway.
- The **South Hallway** (GH04) is located in the south side of the building, running west to east. The hallway connects with the west stairway and runs east to the southeast entrance. It intersects with the east hallway and the south southeastern entrance.
- The **East Hallway** (GH06) is located in the east side of the building, running north to south, connecting with the south hallway, the northeast hallway, the north elevator, the east stairway, and the main north stairway. The door connecting the east hallway with the main north stairway opens into the stairway.
- The **Northeast Hallway** (GH07) is located in the northeast section of the building, running west to east, connecting to the east hallway and the northeast entrance. The northeast entrance's door opens to the outside.

Room Locations:

- The **Water Institute Room** is room number G015, located off of the west southwest hallway. There are two entrances into the room, both off of the west southwest hallway. The double door entrance opens into the hallway, and the single door entrance, which is located across from the restrooms, opens into the room.
- Room numbers G003-G018 are located off of the west southwest hallway in ascending order, starting in the southwest corner and going clockwise.
- The **Energy Center** is room number G030, located off of the southwest hallway. There are two entrances into the room, one off of the southwest hallway, the door opening into the hallway, and the second door is off of the south stairway, door opening into the stairway.
- Room numbers G030-G038 are located off of the southwest hallway, in ascending order from south to north.
- Room numbers G043-G062 are located in the northwest hallway in ascending order from south to north.

- One of the **Meeting Rooms** is room number G070, located off of the south hallway. There is one entrance into the room from the south hallway, with the door opening into the meeting room.
- The **Workroom** is room number G071; there is one entrance into the room from the south hallway, with the door opening into the workroom.
- Room numbers G065-G074 and room number G076 are located in the south hallway in ascending order from west to east.
- Room numbers G075, G077, G079, G081, G090, G092, and G094 are located off of the east hallway in ascending order, north to south.
- Room number G080 and room numbers G082-G087 are located in the northeast hallway in ascending order from the west end to the east.
- The **Conference Room** is room G090 and has two entrances, both of which open into the room. One entrance is off of the east hallway, and the other is off of the east hallway's open area across from the north elevator and main north stairway doorway.
- One of the **Meeting Rooms** is room number G092, located off of the east hallway's open area, with a door opening into the room.
- Room numbers G095 and G097 are located off of the main north stairway.
