<i>My problem-solving abilities improved because of this course.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000

Comments

Absolutely loved this course, statistics is known for being a tough class, but Professor Kuhn is amazing. I'm pretty certain that the entire class really enjoys his classes and teaching methods. He always take the time to explain things if needed and doesn't rush through the material, the pace is perfect, except for the last few difficult chapters! He makes class fun with his comic relief antics as well!

You were an awesome professor! Thank you for being so patient with me, and really care that I understood this course. It means a lot when a professor goes out of their way to really help. You are truly dedicated! You're a great guy! Thank you so much for your extra time, take care! =]

Mr. Kuhn is one of the best instructors PNC has to offer.
was a challenging course and i enjoyed taking it with Kuhn.

Do a reveiw before each quiz and homework. The attendance we do in class is different from the online assignments which makes it difficult to understand the subjects.
