He has been one of my best professors. Not to mention one of my favorites. If I needed to take another statistics course, I would take one of his classes.

I strongly agree with everything in the survey above. The material was well organized and presented clearly in a way that allowed it to be easy to understand. I am not sure if anything could really be done to improve the class given the material.

Simple class.

this was my most difficult class and by the end of this semester i truly feel like i made a great accomplishment by staying and getting a good grade.
