

Course Evaluation

Term: Fall 2009

Course: STAT 11300, Section 3 Statistics & Society

Responses: 3 out of 8 (37.5%)

Surveys filled out: 3

Question	Statistics	
<i>I understand the course requirements, grading scale, and deadlines.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>The course content is well-organized.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor displays a clear understanding of course topics.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor readily maintains rapport with this class.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>I received a fair evaluation of my performance in this class.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>This course has effectively challenged me to think.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>I understand the course requirements and grading scale.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>The study guide or other printed materials are helpful.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>Exams are reasonable in length and difficulty.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	4.333
<i>Assignments are pertinent to topics presented in class.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor makes good use of examples from real life situations related to the course material.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor seems well-prepared for class.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor communicates at a level appropriate to my understanding.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor is reasonably available for help outside of class.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My instructor uses Internet technology effectively</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000
<i>My problem-solving abilities improved because of this course.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	5.000

Comments

Absolutely loved this course, statistics is known for being a tough class, but Professor Kuhn is amazing. I'm pretty certain that the entire class really enjoys his classes and teaching methods. He always take the time to explain things if needed and doesn't rush through the material, the pace is perfect, except for the last few difficult chapters! He makes class fun with his comic relief antics as well!

You were an awesome professor! Thank you for being so patient with me, and really care that I understood this course. It means a lot when a professor goes out of their way to really help. You are truly dedicated! You're a great guy! Thank you so much for your extra time, take care! =]

Comments
I just feel that the book was a waste of money, because it was not a big help at all.
Statistics was a very difficult course for me! Thank goodness for the instructor's grading system!
i think you need to sit down and revise your notes and correct all the errors in them, dont speak soo fast and if someone aslks for help then help them and try to explain in a different way..
None
Math XL or coursecompass or whatever he uses is a fantastic program that the instructor does not use properly. But everywhere else hes good, especially in helping outside of class.
Very tough course, but Dr. Kuhn was a great professor.

Mr. Kuhn is one of the best instructors PNC has to offer.
was a challenging course and i enjoyed taking it with Kuhn.

Do a reveiw before each quiz and homework. The attendance we do in class is different from the online assignments which makes it difficult to understand the subjects.

Comments

professor kuhn's way of teaching a mathematical class is very different from what i'm used to. I had difficulty learning because he doesnt work out problems with us he just has the questions and how to find the answers printed out on sheets of paper. it was just very different than my other math classes and my other stats class.

Professor Kuhn is extremely funny and good to have in class. I wish he would talk a bit slower sometimes. Perhaps longer class periods would be more appropriate for the amount of information that is covered.

Great teacher, and enjoyed his layout of how the classes and assignments were structured with his handouts that we worked on in class. Seems like a much more efficient and engaging way of going about and learning certain topics rather than being bored during a lecture that we can easily ignore.

I'm not good at Statistics at all. However, Professor Kuhn has did more than a wonderful job at helping me understand the course content.

professor treats students very well

This man is a genius.

<i>The design/interactivity of this course is appropriate for Internet delivery.</i> 5: Strongly Agree - 1: Strongly Disagree	Mean	4.250

Comments

It is a shame that the Course compass did not provide more step by step instructions in the practice assignments

well organized course

This was my first online course, so I was a bit nervous at first. I wasn't sure if not having the in-class interaction would hinder my learning. Prof. Kuhn did an excellent job of providing instructions (both written and in video form) and class notes for this course. All these tools aided in my success in the course.

Worst class I have ever taken!

50 point test should have more than 3 questions.

I wish the tests had more than just 3 questions. It is a Make Or Break type of test. Even if the tests were 5 questions it will still allow us to show our knowledge of the problems sets we were working on.

The length of the assignments are absolutely ridiculous. One assignment that was 10 questions would take 8 hours (and I've received A's in similar math courses). Also, having an assignment due on Thanksgiving Day was uncalled for.

Mr Kuhn has been very helpful and while I was struggling, I attended class aslo and learned alot. Unfortunately, I could not attend class for extra learning because of work, but Mr. Kuhn has been supportive.

I didn't like that not getting an 80% or above on the attendance assignments kept you from being able to take a quiz or do the homework the same week. So instead of not doing well on just one assignment, you would do poorly on two. There were some assignments that were so long and time consuming that getting an 80% was all I could do to get it in on time. I also disagree greatly with the fact that we had an assignment do on Thanksgiving day.
