Comments	2	<ul style="list-style-type: none"> I loved taking the course online Dr. Kuhn is extremely available to students, perhaps above and beyond the call of duty. His "attendance" assignments are so clear and easy to understand that I rarely had to textbook. He seems to be very interested in student success and seems fair to all students. He meets challenges in innovative ways and I appreciated being in his class very in

Comments	3	<ul style="list-style-type: none"> Great Teacher! I would take him in another course again. Doing this class online, while saving gas money, is harder than if you stayed in class for the lecture. I enjoyed his class. I felt he went a little fast for my taste, but I am a mathphobe, so it was probably just me being retarded. I am glad he used Math xl, I really like that prog It's better than just reading a book and having to flip to the back of the book or look in some solutions manual, it's interactivness made the homework process a lot faster, ar effective, I think.
