| Comments | 6 | <ul style="list-style-type: none"> I think that if nursing students are required to take this class, there should be class times that the nursing students can attend. All of the in class times interfered with our nursing classes and therefore we had to take it online. I don't think that that was fair. Communicating with Kuhn is awesome as he is readily available and ready to help, kinda like an associate at retail shop :) I would recommend giving credit for the attendance. Not 50pts but even 10 or 5pts! Some weeks it was ALOT of work. I also would recommend taking is class. I feel like I would have better that way. Professor Kuhn is a great professor. He is very persistent and made sure that I completed the course. I am going through a very difficult time in my life and because he kept on me I was able to finish this course. This class was very organized. The instructor readily responded to emails. This class is very difficult online, but the instructor helped as much as he could. Very challenging course overall and maybe offer the quizzes twice and record the best score, but other than that great course, you were always there to help no matter what time of day it was! | | | | | | | | | | | | |

| Comments | 6 | <ul style="list-style-type: none"> • There was a lot of material to cover. I wish we had class three times a week to help gain understanding of the material more easily. • Okay I must say nobody gets giddy about Stats, however Prof. Kuhn made it light hearted and made us feel like we could do it. He does talk a bit fast but I never would have dreamed as a dyslexic student I could do much less understand Stats. I faired well because the teacher went above and beyond and was very patient and willing to stay over to help out!!!! Great Teacher he gets an A+ • The course was good and the instructor was great. Sometimes course compass is hard to deal with, but overall it was a good experience. • The assignments for this course were unfair. I do not feel that it reflected my knowledge of the subject. Dr. Kuhn is scatter brained and talks too fast. • Professor Kuhn is an amazing professor. Statistics is not the easiest material to understand and he stayed after and helped, offered to help via email/computer/skype when needed. He was so organized and updated grades and where we stand in the class every week. I will definitely take another class with him if possible. • This was a great class and the instructor did a nice job. | | | | | | | | | | | | |
