Comments	11	<ul style="list-style-type: none"> Great class. Instructor is a great teacher and is very organized. I did have an issue with him contacting me for some silly stuff but not a huge deal at all. Instructor doesn't see like offering the class online and tries to talk online students into taking the class on campus but I've done well on the class and am glad to have been given the opportunity to online. It is a bit more difficult online, although my schedule did not allow time for me to take it in class. The professor did regularly communicate with me via phone and internet appreciated. Being an older student I found I needed more time to complete the coursework. But overall the professor is very well organized. This gave me the opportunity to teach myself statistics. Having the ability of loving math and time management helped me through the class. There was sufficient time and I covered through the whole class. This course was very well organized, however, I think it loses a lot not having the classroom discussion. It was very difficult for me. The instructor did his part very well and me tremendously. hmm... great teacher, took time out of his schedule to meet me at the school one day to make sure i was able to understand the homework well enough to finish the requirement online This was my first online class. It was very well organized which helped since it is an online class. Dr. Kuhn did a wonderful job he is truly concerned about his students. I enjoyed taking his class and learned a lot. There were times the online quizzes weren't clear in how they wanted the answer written. (i.e. round to the nearest tenth. But didn't specify as a fraction or a decimal). The test had to be retaken since I chose decimal instead of fraction. I enjoyed taking this course. Professor Kuhn went above and beyond his expectations. When I was falling behind, he would e-mail or call me and helped me stay on track. I appreciate him going out of his way. I would definitely take another course taught by him. I would not recommend to take Math online. I did okay but if you don't understand something, it really can put you behind. There were a few things that I could just not tear myself but with my work schedule and kids, I had no choice but to do this course online. grading seems kind of messy. The math xl scores do not match the scores that Mr. Kuhn is using for the course, not very clear.

Comments	3	<ul style="list-style-type: none"> The finest class that I have ever taken! You can tell that Jon is EXTREMELY passionate about what he does, but moves a bit too fast. Maybe has too much material to cover in one semesters time, but I thoroughly enjoyed taking this course. I wish him the most successful future possible! Thanks Prof Kuhn for the experience :D Klaus Fredrik Nyman knyman@pnc.edu 269.932.8835 He really knows what he is doing. I feel like I learned a lot from taking his class.
