Comments	4	<ul style="list-style-type: none"> I enjoyed Dr. Kuhn's class because of his passion for STATs. He is so enthusiastic and that enthusiasm can rub off on us, as students. I really enjoyed having Professor Kuhn as a teacher. I am one of those students that hates math, and it hates me. However, Professor Kuhn made it make sense to me more than any other teacher ever has. Also, he is very helpful. There are so many ways to get in contact with him and he is always willing to meet in his office or be on skype to help with homework. I must say when this class first started I thought it was odd that a teacher wanted us on Skype, but it certainly is an effective way to help with homework. He made math somewhat enjoyable, which for me is saying a lot. Great Class! I have had great instructors at PNC, but I have to say that Dr. Kuhn is the best instructor I have had. He has been available at convenient times, including Saturday mornings via telephone. Great at helping the student understand.

Comments	4	<ul style="list-style-type: none"> The instructor was available and eager to help and had very organized supplemental aid for online students. I found the material difficult and would much rather have taken it in class if I had had that option, however, it was possible to get through it online. I wish he could post lectures online, sometimes the short video clips for stat crunch were not enough, and I had a lot of trouble interpreting his notes without having been in the lecture. It was more like I was trying to teach myself everything out of the book and had him there to skype occasionally if I needed help on a certain thing, which was sufficient, but I know I don't have as full of a grasp of things as I would had I been in a normal class. Was told to go to Skype hours when I was on campus instead of coming to see my teacher I think that face to face time in his office should be used more than Skype! I really enjoyed how helpful my instructor was, and I really appreciated him calling to make sure we were all prepared to begin the course and letting us know that he was there for us if we had any questions each week. I think it is unfair that in order to even take a quiz, I had to receive an 80% on the homework. If i struggled on a chapter and couldn't achieve an 80%, I received a 0 on my quiz because the prof wouldn't even open it so I could take it. I spent 3 hours sitting on 76.3% trying to obtain another 3.7% so the quiz could be open but I couldn't figure anything out. So, instead of being able to attempt the quiz and receiving whatever grade I could get, I ended up with a 0 on the quiz and all of the days and hours I spent on the homework was for nothing because we didn't receive credit for homework.
